

34th Street, Edmonton, Alberta

ABOUT 34TH STREET

Shawcor's 34th Street, Edmonton, Alberta facility is strategically located to serve the Western Canadian Sedimentary Basin. This provides customers with logistics and transportation savings along with a short term stock pile points that can be used to store the pipe prior to construction.

This facility offers a range of products for the oil and gas industry, including the industry leading Yellow Jacket® cross head extruded polyethylene product and the YJ2K™ three layer anti-corrosion system. This range of products provides customers with a one stop center for all project coating requirements.

The rail spur located on-site at Edmonton 34th can provide logistical advantages for receipt of bare pipe or load-out of coated pipe.
